

DEVELOPMENT OF AGRICULTURAL NETS FROM RECYCLED PLASTIC WASTE

Project Description:

This project embodies our commitment to tackling two of the world’s most pressing challenges: plastic waste pollution and the need for innovative, eco-friendly agricultural solutions. By repurposing discarded plastic into durable agricultural nets, we aim to create a product that not only protects crops but also promotes environmental sustainability.

In response to the growing market demand for our product, we are committed to taking decisive action. To address the challenges of increasing volume backlogs, we plan to modernized our machinery and implementing state-of-the-art technologies. These enhancements will not only boost our production capacity but also ensure that we meet and exceed industry and market expectations.

Project Location :

Jl. Raya Laswi No 236, Majalaya,
Bandung Regency, 40382

Land Area
5.100 m² by
Company

Investment Value

IDR 50 Billion,
USD 3,12 Million

Business Scheme

Funding or
Join Venture

Financial Feasibility

IRR : 21%,
NPV : IDR 35.7 Billion / USD 2,26 Million,
Payback Periode : 10 Years
